The News.

We have the not unexpected tidings, this morning, of the death of Col. BENTON, which occurred at Washington on Saturday last. Thus, one by one, the actors in the great drama of American politics, pass off the stage.

The *America* brings a variety of interesting news from Europe. France seems to be in a disturbed state, as if the people expected, rather than desired, another revolution. Russia, too, is greatly excited about the proposed emancipation of the Serfs; and there is trouble brewing in the Danubian provinces.

Mexico has had another Revolutionary spasm, and a new President has been declared.

The Welland Canal is open, vessels having passed through on Saturday last.

Very little of interest from Washington today. The President has not yet decided what States to call upon for Volunteer Regiments for the Utah campaign.

The New York Produce Market was lower, on Saturday; money plenty and easy, and stock advancing. Our own market was without material change, except that Winter wheat was in active demand at high rates. Our usual market review for the week will be found in this morning's paper.

The Legislature re-assembles at Madison this morning. It will, we hope, finish up the business and close its session by the 1st of May.

The weather has been unsettled and disagreeable, for some time past, and on Saturday, we had a stiff blow from the North East, with symptoms of a storm.

DEATH OF COL. BENTON.

The apprehensions expressed in our paper of Saturday have been too surely realized. THOMAS H. BENTON, to long a prominent figure in the political canvass, and for nearly thirty years a Senator in Congress from the State of Missouri, is no more. He died at Washington, on Saturday morning, full of years and of honors.

Col. BENTON was one of the marked men of the Republic. He was the compeer of CLAY, WEBSTER and CALHOUN, the illustrious trio who so long lent dignity and weight to the deliberations of the American Senate. He was, for many years, the intimate friend, the sturdy champion and the wise counsellor of Gen. JACKSON.

Later in life, he took an active part in opposition to the repeal of the Missouri Compromise, and to the Federal attempt to enslave Kansas; and he contributed largely to the political annals of the country by his interesting history of Thirty Years in the U. S. Senate.

When such men fall, after so long a period of useful and honorable public service, the nation mourns, and all parties unite in giving utterance to the regrets which the death of an old, tried and true soldier of the Republic is so well calculated to excite.

The Deficiency still.

WASHINGTON, April 3.

Correspondence of the Courier and Enquirer.

The following are the provisions of the Deficiency Bill which will probably pass the House:

For the Clerks of House,	$3,000
Contingencies of the House of Representatives,	43,000
Regular Supplies of Qu'r. Master's Dep't	778,009
Purchase of Horses,	252,000
Incidental Expenses of Qu'r. Master Dep't	190,000
Barracks and other Buildings,	80,000
Transportation of the Army,	5,490,000
Subsistence in kind,	1,220,000
Surveys for Military Defences,	8,900
Miscellaneous,	4,900
Surveys in California,	220,000
Clerks in Post office,	3,300
Deficiencies in Revenues of P.O. Dep't.	1,460,000
Total,	$9,659,000

This is exclusive of amendments to be offered in the Senate and House, which will doubtless swell the bill to over $12,000,000, by far the argest ever known.

RETRENCHMENT BY MILLIONS.—The Custom House returns show remarkable evidence of the power of our people to retrench and recuperate. In the last three months at this port the reduction in our importations amounts to the enormous sum of thirty-six millions. In 1857, we took nine and a half millions less of foreign goods than we did in March, 1857. In the first six months of the present fiscal year, including the three months prior to the revulsion, our imports at this port were four and a half millions in excess of those of the previous year; now, our imports for the nine months ending 31st March are actually thirty-two millions in arrear of last year. All this indicates a tremendous amount of contraction and retrenchment spreading throughout the country; and it must load, before we expect it, to a sudden revival of business, increase of trade, and restoration of commercial activity.—*N. Y. Herald, 7th.*

ELECTION IN ROCK ISLAND—REPUBLICANS VICTORIOUS.—The spring election for town officers in this city, passed off quietly last Tuesday, and resulted in a complete Republican victory by majorities ranging from 45 up to 110—a great and surprising victory, as the city heretofore has always gone Democratic in party elections.

The returns from the County also indicate that the Republicans have carried eight, if not more out of the fifteen Supervisors. Last year the board was Democratic by six or seven majority.

Both Douglas and Buchanan Democracy are in bad odor in these parts. There has been so much shuffling and trickery manifested by these arch demagogues, that their partisans here, although they have tried very hard, cannot turn corners often or gracefully enough to keep up, or even in sight.

Huzza for the Republican party and its Prest dent in 1860! This county will do its whole duty in that campaign. W.

—*Correspondence Chicago Press.*

DEATHS.—Hon. J. M. Scott, William Shippen, Jr., and Prof. John K. Mitchell, all eminent citizens of Philadelphia, are among those who died last week. Dr. Mitchell had high professional attainments, and at the period of his decease held the Chair of Theory and Practice in Jefferson Medical College. He was also Grand Master of the Grand Lodge of the Free Masons of Pennsylvania.

REPUBLICAN TICKET TRIUMPHANT IN BARABOO.—The town meeting in this place, on Tuesday, was the largest and most spirited ever held in the place. About 320 votes were cast, being a fourth more than at the State election last fall.—The right of private judgment seems to have been appreciated largely, as very few ballots, although four different tickets were in the field, were cast without mutilation. We are happy to announce, however, the election of every man upon the straight Republican ticket, most of them running in by very heavy majorities.—*Baraboo Rep.*

LA CROSSE.—We learn from a gentleman just from La Crosse, that the municipal election in that city on Tuesday last, resulted in the choice of David Taylor, anti-Lecompton Democrat, for Mayor.—*Madison Journal.*

THE ELECTION IN BELOIT.—At the municipal election in Beloit, on the 6th, the Republicans carried the day, re-electing the Hon. A. P. Waterman as Mayor, by a small majority. The Common Council stands eight Republicans and four Democrats.

☞ The Morris N. J., Canal was open for navigation on Monday. The prospects for a heavy business on this canal the coming summer are unusually flattering.

MILWAUKEE & WATERTOWN R. R.—S. S. Merrill, Esq., so long the efficient and popular assistant Superintendent of the Milwaukee & Mississippi R. R. has been appointed Superintendent of the Milwaukee & Watertown Rail Road.—Mr. D. C. Jackson, so favorably known in the West, as a Rail Road builder, assumed the temporary duties of the office until Mr. Merrill could be procured, and now withdraws to give place to him. Mr. Jackson is engaged in extending the Road from Columbus to Merrimack, on the Wisconsin, as contractor, and is pushing the work forward to an early completion, with his usual energy.

The work from Columbus west, we learn, is going on finely, and the Co.'y expect to be ready for the next crop in the Wisconsin and portions of the Baraboo Valleys. The appointment of Mr. Merrill is one every way "fit to be made"—and in our judgment is one of the very best that could be made for the place.

Mr. J. J. Tallmadge, of the Western Transportation Company, N. J. Emmons, Esq., and S. L. Rose, Esq., of this city are in the direction of the Company.

We recognize among Mr. Merrill's employees, many old friends, and just such company as we should expect to find him in. He can call to his aid, as many such as any man in this State.—The important qualifications of knowing his *men*, and his *business*, are fully possessed by him, and his men *know* him. We certainly wish him the success he deserves, and he will need no other. This Road has been purchased by its present owners on such terms as defie a failure—with proper management and its importance to one of the finest sections of our State, is being better understood every day.

By reference to an advertisement in our columns, it will be seen that its running time is changed, so as to greatly facilitate the business interests of passengers from the country. They now have from half past 11 o'clock A. M., until a quarter past 4, P. M. in the city, and return the same evening.

COMPLAINT AGAINST THE POLICE.—Darby Carney, an elector of the Third Ward, who, at the recent election, acted as Challenger on behalf of the People's ticket, complains that he was forcibly dragged away from the polls, by Policemen Coughlin and McCarty, under the orders of Chief Beck, and carried off to the Station House, under pretence that he was disorderly, but really, as he believes, to get him out of the way. At the same time, Dan. Kennedy, who was challenging on the Democratic side, was allowed to remain unmolested. Mr. Carney adds that he was released, after a brief detention, with directions to appear the next day and to answer the charge of being disorderly; that he did so appear, and was informed by the Police Justice that there was no complaint against him. Assuming Mr. Carney's story to be true, the Police abused their authority in making this arrest.

WINCHELL.—This comical genius gave a second performance at Young's Hall, Friday evening, and kept his audience in a roar, all the while. His songs, stories, imitations and sudden transformations, must be heard and seen to be appreciated. His version of the "Dean and Bcker" case, with the accompanying Temperance Lecture, was excellent. WINCHELL has the rare faculty of doing well all that he undertakes, and never fails to satisfy his auditors. He intends, we learn, to make a tour through the State, and give one of his entertainments in each of the principal towns.

THE RIGHT MAN IN THE RIGHT PLACE.—E. H. Williams, Esq., has been appointed Assistant Superintendent of the Milwaukee & Mississippi R. R., in the place of the late efficient occupant of that position, Mr. S. S. Merrill, who has received the appointment of Superintendent on the M. & W. R. R. The M. & M. R. R. Co. have been fortunate in securing such a man as Mr. Williams for that important trust. Mr. W. was formerly Superintendent on the Northern Division of the Michigan Southern Railroad, and while here he gained an enviable reputation for good management and business capacity.

STEALING FROM THE RELIEF SOCIETY.—A man named J. M. McMullen, who has been supported by the relief society, for several months past, was arrested Friday, for stealing a lot of clothing, provisions &c., from the office of the society.—McMullen had been employed to do chores for the society, for which they supported him. He could find no employment, and was quite destitute until the society assisted him. Being well acquainted with the office, he found little difficulty in pilfering the goods which were intended for the poor. He was lodged in jail Friday evening to await an examination.

THE LAKE NAVIGATION COMPANY'S SALE.—It will have been seen by advertisement in our columns, that this Company's splendid fleet of vessels is to be sold at Buffalo on Tuesday, 18th inst. at public sale. The fleet is a splendid one, has been kept in good order, and that terms are such that those wishing to become vessel owners can do so by the outlay of a small sum of money.—The list embraces sixty one sail vessels of all classes, and five steam tugs.

FIRE SATURDAY MORNING.—About 4 o'clock Saturday morning, an alarm of fire was sounded for the Fourth Ward. It proceeded from the blacksmith shop of the M. & M. R. R. Company, in close proximity to their Machine Shop. The alarm soon brought the Fire Department to the ground, and Engines Nos. 1 and 4, getting streams upon the fire, soon subdued it. The frame building in which it originated, was pretty much destroyed. Loss probably $600. It was fortunate that the flames did not spread, as in that event the damage might have been serious.

NOT QUITE.—The *News* grimly asserts that Mr. Hadley is elected "President of the Council," and triumphs in that alleged fact. The *News* speaks without warrant. The Mayor, Mr. PRENTISS, is *ex-officio*, "President of the Council." In his absence, Ald. PHELPS, President of the Board of Aldermen, is "President of the Council." It is only in the event of the absence of both the Mayor and Ald. PHELPS, that Councillor HADLEY can come in. He is but third in command.

NOTICE TO TRAVELERS.—CHANGE OF TIME.—On and after this day, Monday, passenger trains on the Milwaukee and Mississippi Rail-road will run as follows:—Leave Milwaukee daily (Sunday excepted) at 11:20 A. M., and 4:45 P. M., connecting at Prairie du Chien with a line of first-class steamers to all points on the Upper Mississippi.

The Milwaukee and Watertown Rail-road has also changed their time table. See Traveler's Directory.

AUCTION SALE.—Rooney has an auction sale of Dry Goods, etc., at the Bee Hive, this afternoon.

Oregon Fire Company No. 3.

To Messrs. H. Moore, J. Goodman, Wm. Goodman, J. P. Cromwell, Vose, Mitchell & Co., &c.

GENTS:—Please accept my thanks for your kindness, Wednesday, April 7th, in presenting me with a handsome and elegantly finished SILVER TRUMPET. I accept it with gratitude and pride, not only because of its instrinsic worth, but as a tangible and flattering token of your esteem and approbation of my past course while among you. It is always pleasing to have the approbation of our fellow men. While among you, whether acting in the capacity of a fireman or an officer, I have done *only* my *duty*, and of course have no special claim upon you. This unexpected manifestation of your esteem is therefore received by me as the unreserved expression of your feelings.

Having been called upon to fill another office, one also connected with the Fire Department of our city, it has become necessary that our connection as members of No. 3 should for the present be severed. But in taking leave of you, let me say that I will carefully preserve this trumpet as long as I live, and every time I look at it, will remember with gratitude and esteem my brothers with whom I have associated over seven long years, and whose company I have always prized. And let me further add, that in the future, whenever and wherever we may again meet, whether in the peaceful pursuits of life, or in the capacity of firemen, battling hand to hand to subdue the destructive element and preserve human life and personal property, I will endeavor still, to the best of my ability, to do my duty, and thus continue to merit your valued approbation. O. M. HOFFORD.

CONCERT TO-NIGHT.—Another of the very attractive Concerts of our Musical Society is to be given at Young's Hall *this* evening. The programme, which will be found in our advertising columns, includes several gems. Members can procure their tickets at NIENDORFF'S.

DYEING AND SCOURING.—Those who have garments of any kind, or color, which they wish cleansed, dyed, or renovated, are referred to the card of Mr. CHAINTRON, in to-day's *Sentinel*.—Mr. C. understands his business thoroughly.

MILWAUKEE FIRE DEPARTMENT.—A regular meeting of the Board of Trustees of the Milwaukee Fire Department, will be held at the Engine House of No. 2, at 8 o'clock this (Monday) evening.

BENTLEY'S SALOON.—BENTLEY has got his Saloon fixed up and in running order. He invites his friends to come and see him. He gives a free lunch every day, at 10½ o'clock.

☞ An Irish woman in Bristol missed her pig, and after diligent inquiry, learned that it was in possession of a highly respectable citizen of the town. She straightway called upon him, when he informed her that the pig had broken into the Episcopal Church, where his pig-ship was found, and if she would pay one pound damages, she could have the pig. She replied: "The pig and the church may go for me, I'll pay no pound for him if he has turned Protestant!"

COMMERCIAL & FINANCIAL.

WEEKLY SUMMARY.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, April 12, 1858.

The past week has been rather an active one with our business men, and our streets have presented a far more lively appearance than for any other week since the Spring business commenced. Goods from the East begin to arrive, and country merchants are coming in to purchase their Spring stocks. In nearly every branch of trade there has been considerable activity, and quite a perceptible improvement in business generally. We have as yet had no important arrivals of merchandise from the East, but we may now soon expect large cargoes of supplies by the lakes. Already a large amount of produce has been shipped from this city, which is now on its way to the East, and a vast deal more will be shipped during the coming month. This commerce with the East will soon draw upon it's plethoric stores of gold, and put it in circulation through our State.

Since our last weekly summary, we have had several arrivals from the lower lakes. The resumption of navigation has caused a revival in general trade, which fully comes up to our expectations. Prices of produce have not risen very rapidly, but they have, notwithstanding, improved steadily, under an increased demand. Reports of a dull European market have deterred many from operating as extensively as they otherwise should, and have in a corresponding ratio kept down prices; but still, the market is in a healthy condition, and there is every prospect of its remaining so. From all quarters we hear favorable news of the growing crops, and it would appear that the comparatively low prices for grain have not deterred farmers from sowing largely for the coming harvest. We append our weekly review of home markets and money matters.

In relation to the money market of the Metropolis, the *N. Y. Tribune* of the 7th says that "there is a slight increase of activity in money negotiations, but rates are no firmer on paper in the open market. The range of discount on first class names is from 6@7 ₱ cent., and the supply of capital is superabundant. On call large sums are offered at very easy rates, in some cases as low as 4 ₱ cent, and there is quite as much difficulty as heretofore described in placing money satisfactorily, even at these low figures. At the banks there is a very small increase in the applications, but nothing as yet which can be stated as indicative of any material restoration of demand for business purposes."

Shipped to date last season—none!

Receipts of produce have not increased during the past week. In the fore part of the week there was a moderate degree of activity in our market, but towards the middle it became dull and prices declined; towards Saturday it became more active, and prices were rather on the upward tendency.

FLOUR—The shipments of Flour for the past week are 16,104 bbls; and the receipts 8,940 bbls. Shipments, it will be seen, are large for this early season, but there have been few transactions here in the way of sales. In the beginning of the week we heard of a sale of 1,000 bbls "Phoenix Mills" extra, at $5,50 free on board, and on Friday another sale of 1,000 bbls same at $5,50. There is but a small amount of country brands in store. Holders, generally are firm, and not anxious to dispose of winter, or choice spring flour at present rates. There is a good demand for choice winter wheat flour to supply home consumption, at $4,50@4,62½, and for country extra there is a moderate request at $3,25@3,50.

WHEAT—Shipments for the week 86,502 bush, and receipts by R. R. about 50,000 bus. Good samples of spring and winter wheat have been in good demand the greater part of the week, with a greatly increased enquiry for the latter towards the close, and an advance in the price. A choice article of white wheat will readily bring 98@99, an advance of full 5c on our figures of last week. It is eagerly sought by warehouse men, and millers must have it to supply the retail trade. Spring wheat declined towards the middle of the week, but was in good request at its close. We quote No. 1 spring dull at 61@63; from common to good, extra club active at 66@67c, from medium to choice, red winter do at 70@75, white do scarce and in demand at 70@90c.

FREIGHTS—There was a disposition on the part of vessel owners, in the early part of the week, not to make contracts at the current rates. They appeared more willing, however, to accept offers towards the close. The following are some of the vessels chartered: The *G. D. Norris*, wheat to Oswego at 1½c, and flour at 50c; the propellers *Buckeye* and *Wisconsin*, flour to Ogdensburg at 70; the *Michigan* to Montreal at 80c; the propeller *Ontonagon* through to New York at 31.05; the brig *Mahoning*, to Collingwood at 5c; schooner *Sirius*, wheat to Oswego at 1½c; the *Hans Crocker*, full cargo of flour to Buffalo at 85; schooner *St. Andrew*, wheat to Montreal at 1½; schooner *Emblem*, (small craft,) to same port at 1½c; schooner *Onward*, wheat to Oswego at 1½; brig *Sam Hale*, flour to Collingwood at 25c; schooner *Davis*, wheat to Montreal at 1½; schooner *Augusta*, wheat to Oswego at 1½, and flour at 45c; the *G. W. Adee*, wheat to Kingston at 11c. A number of grain carrying vessels are soon expected from below, so that there is little probability of a rise in freights.

RYE—Is scarce and wanted at 48@50c. Receipts very small.

BARLEY—Receipts heavy, and dull at 38@40c from common to bright lots.

OATS—Coming in freely, and selling readily at 25@26c from the track.

CORN—Nominal at 30@35c in the ear, and 30@37c shelled.

BEANS—Quiet at 60@c for best.

TIMOTHY SEED—Receipts smaller and demand fair, at $1,95@1,50 for best quality.

POTATOES—Are coming in in large quantities, and are dull at 25c.

EGGS—Also in large supply, and very moderate request at 8@10.

BUTTER—There is a moderate enquiry for good firkin at 12½@14c, and for roll at 15c.

PORK—Dressed hogs are still coming in, in small quantities, and find ready sale at $5,75@6 for home consumption.

HIDES—Receipts have been large for the week, and demand good at 4½@6½ for green, and 10@12 for dry.

SHEEP PELTS—In good request, at 12½@75c.

WOOL—More plenty, at $2,50@3 for mixed, and $3,25@4 for best hard wool.

HAY—The market has been better supplied for the past week, than several previous. Timothy sells at $9@11 ₱ ton, and wild hay 35@8.

The weather for the most part has been cloudy and rather cold, during the week, with several rain storms. On Saturday it was still cloudy and disagreeable.

MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF HEILBR BROTHERS, 166 EAST WATER ST., MIL., April 10, '58.

We are now entering into the fall flush of our spring business, and the indications of a successful season are quite evident. We have had a long trial of nerve and patience, but we are led to believe that now nearly all difficulties are surmounted, and we are finally on the right track. We are not, however, out of the woods, and it is well that we should keep our eyes open and well directed towards the beacon light, and avoid all shoals by caution. The future looks bright, and a prudent course of business will place us in as good a position as we occupied last year. Stocks of all kinds seem to be depressed at the East, and we can only account for that on the ground that regular trade has began to progress capital. Exchange on London has advanced within the past week, but very slightly. Navigation being now open, and produce going forward to some extent, will soon give plenty of exchange to our bankers' who for a few weeks past have been pressed. As yet there has not been much eastern money sent here for circulation, or for the purchase of produce, but we may expect soon to be supplied, though prices of grain will scarcely reach the quotations of last year at this time

Uncurrent money is not much in circulation. We have not for many years had so good a currency as at present. Our own and the Illinois banks furnish nearly all our immediate wants, and the banks of each State are well secured. In our last circular, issued the 8th, we neglected to quote Erie City Bank. We buy the notes of that institution at 50 cts. discount for a short time. The time for the redemption of the Bank of the Republic, Rhode Island, expired some days since, and the notes of that Bank are now worthless. Exchange is in some demand, and remains scarce. Currency is also light.—There is great call for gold. Land Warrants are scarce, and the demand cannot be satisfied. We should advise all parties desiring to purchase, for either speculation or settlement, to do so as soon as practicable, as an advance in price is inevitable. We quote:

CATTLE AND PROVISION MARKET.

Brief Cattle have come in freely during the week, and have met with ready sales. Some lots sold to packers at $3,75 live weight, and to butchers at $3,50@3,75 for extra cattle. Hogs are in good demand at $5,75@6,00, with fair supply. One lot of live hogs in market held at 5 cents.

Provisions are higher with a good demand; the market has advanced at the largest packing places in the West, also in New York, and but a light stock on hand here. We quote:

MONDAY MORNING, APRIL 12.

The "News" and the "Postmaster."

Our brief remark, Friday, that Col. SHARPSTEIN was again in trouble about the Post Office and had started on his third pilgrimage to Washington, attended by Mr. H. C. HOBART, to prop up his case, elicits a very diplomatic reply from the *News*. Col. SHARPSTEIN, says the *News*, "has gone East," and, it ominously continues, "he is, perhaps, in Washington. Possibly he "is not there." All of which is indisputable.—Whereupon the *News* proceeds to say, with a little circumlocution, that it is none of the *Sentinel's* "business" where Mr. SHARPSTEIN is, or what he went East for.

But as if immediately repenting this discourtesy, the *News*, in the next breath, proffers us the desired information. Mr. Sharpstein, it is happy to assure us, "is not in danger with regard to the Post Office;" "had no fears on the account when he left;" did not employ Mr. Hobart to help him; and "has not gone exclu-"sively on personal business, nor mainly on ac-"count of his office."

We accept the explanation, and reading the *News* literally, understand that Mr. Sharpstein has gone East partly "on account of his office," and infer that he would not have done so, unless in some "danger." We have no idea, certainly, of taking a hand in the fight against Mr. S. It is a "family quarrel" with which we do not care to interfere. But we confess to being considerably puzzled as to what steps Mr. Sharpstein will take to clear up his record on Lecompton, and satisfy Mr. Buchanan that he has been right on that question from the start. If he successfully accomplishes this juggler's trick he will have deserved from the President the official cap and bells, or given that functionary a good claim to wear them himself.

OUR TRADE WITH CANADA.—Not long since the Secretary of the Treasury issued a circular to the effect that a consular certificate should accompany all importations into the United States from the British Provinces under the Reciprocity Treaty, exceeding in value one hundred dollars. The operation of this rule is likely to prove very detrimental to the commercial intercourse between the two countries, and must materially affect the prosperity of the border interests engaged in this trade. There are but few United States consular agents in the Provinces, and none at all west of Toronto, so that anything like an unrestricted commercial intercourse is impossible. The Canadian journals are already commenting quite freely on this subject, and express the opinion generally that unless the rule is modified in some important respect, the beneficial results which were anticipated to flow from the Reciprocity Treaty will be entirely dissipated. The fact is, that the most profound ignorance exists in the red tape office at Washington respecting the commercial interests of the northern lakes, and the present circular is precisely what might have been expected from such a source. The Administration has no eyes except for cotton and rice plantations, and no principles except to extend the area of human slavery.

A CHANCE FOR CUBA.—The Washington correspondent of the New York *Times* says:—"It is certainly the opinion in diplomatic circles here that the English and French alliance has been fatally damaged by recent events, and no less serious a result than actual war between the two countries is even predicted by persons well versed in the diplomacy of Europe, and especially of the English and French Courts. What a glorious opportunity for Mr. Buchanan to put into execution his cherished project for the acquisition of Cuba, and to inaugurate with reference to the nations of the earth generally, the vigorous and high toned policy which he is understood to have in contemplation! Let this policy not be lost in thought. Why wait for a settlement of Kansas matters? Why not give the public something else to talk and think about besides Kansas and the everlasting slavery question?"

THE QUEBEC BOARD OF TRADE, has memorialized the Legislature in favor of subsidy for a weekly line of steamers between Quebec, Chicago and immediate ports, and for the passage of an act for the improvement and management of the harbor of Quebec, by the appointment of Harbor Commissioners, and the vesting in these Commissioners the public beach property from the mouth of the river St. Charles to the lower extent of the parish of Beauport, &c.

☞ Gen. Duff Green publishes a letter in the Washington *States*, insisting that the South ought to resist the Lecompton bill, out of regard for its own honor as well as its interests. Being in a minority, he says, the South cannot afford to put herself in the wrong.

LAND OFFICE NEWS.—The Land Office at Council Bluffs, Iowa, was re-opened for business on the 23d of February. From that time to the 13th, 306,000 acres were entered, all but 10,000 with land warrants. There are still about 600,000 acres of land in this district subject to entry at the minimum price either with land warrants or money. This land is mostly situated North of the Line of the Mississippi and Missouri Railroad. On the 13th of June the reserved sections within the limits of the grants to the railroads, will be offered at public sale. The minimum rate for these lands will be $2 50 per acre. The number of acres which will then be offered will probably reach about a quarter of a million, and they can only be paid for in gold, or in warrants issued under acts prior to 1855—of which there are very few outstanding.

The Emperor of France Shot.

A telegraphic rumor was last night current in town that the Emperor of France is dead. No man has lately occupied a more prominent position in European politics than Napoleon. The European world has witnessed no greater fetis than have been given in his honor. The splendors of English, French, and Russian Courts have been lavished at his feet, and his name has been surrounded with gay acclaims from the populace of some of Earth's mightiest cities. But the romantic pageant of his life is now past, and a vacant niche in History has been filled by an occupant whose memory abounds with curious interest.

The Empress Eugenie, and the son of the departed, will now be objects of wondering attention; and towards tragic France will be directed the eager eyes of an anxious world.—*Madison Patriot, Friday.*

This astounding news has not yet reached our city, though it electrified all Madison last week.

THE SPRING ELECTIONS.—The Lecompton policy of Mr. Buchanan fares hard at the hands of the People. It is repudiated everywhere. New Hamshire spurned it. Connecticut rejected it.—Cincinnati condemned it. St. Louis would not look at it. Dubuque drummed it out of town.—It is repudiated in Elmira, in Portland, in Ogdensburgh, and even at the Capital of Slaveholding Missouri. The Michigan Town Meetings cast it out. The Town Meetings throughout the length and breadth of New York, threw it to the dogs. It finds favor nowhere. The old rule at Donnybrook Fair was, "Whenever you see a head, hit it." The People apply the rule to Lecompton. Wherever it pops up its head, they hit it.—*Albany Eve. Jour.*

☞ A letter from China estimates the loss of lives by the bombardment of Canton at from five to ten thousand. The bombardment lasted about thirty hours.

☞ Attorney General Mcdonald, of Canada, has introduced a bill providing for abolition of imprisonment for debt.

President of the Council.

At a meeting of the new Council, held last evening, an election of President occurred. On the second and final ballot, Mr. Hadley, democrat, got 10 votes, Mr. Lapham 6, Mr. Walter 1, and Mr. Waldo 1. It appears, therefore, that the "revolution" on Tuesday, did not much damage the Democracy. Milwaukee is Democratic still.—*News of Saturday.*

For the "official city paper," the *News* blunders badly. There was no such election held as it speaks of; nor is Mr. HADLEY President of the Council. It is true, however, that Mr. Hadley was elected President of one of the two Boards, composing the new Council, and that Mr. PIERCE was elected President of the other; and if, according to the *News'* logic, the election of the former proves that Milwaukee is Democratic, the election of the latter shows it to be Republican. But we do not suppose that politics controlled the choice in either instance, and only cite the *News'* paragraph as an illustration of the eagerness with which that drowning Tax-Eaters' organ clutches at "straws."

A Fire Prophet.

The Grand Rapids *Eagle* gives an account of a man who has predicted, with singular accuracy, the three or four serious fires which have lately visited that city. Of course suspicion was excited that the "prophet" himself had a hand in starting those fires. This appears, however, to have been unfounded. The *Eagle* has made enquiry, and reports as follows:

We are authorized and requested to state the following facts:

The man's name is Howzer—a quiet and respectable citizen, and an efficient member of Fire Company No. 3. He claims this peculiarity: to *impressions*, in dreams, of forthcoming fires, which never fail to be realized within a short period of time. He has given public expression of his prophecies hitherto, and foretold the three last great fires in this city preceding the one on Monday night; but the exact time or location he never pretended to know. The last fire he did not predict—at least he made no public announcement of such prediction. He very deeply regrets the fame he has acquired, and the injury which the facts and the false reports have inflicted upon his reputation.

In proof of his inoffensive and upright character, he refers to Dr. Blumrich and other relisable Germans, who have long been his intimate acquaintances. We are informed that Mr. Blumrich says he has known him from boyhood; that he has always fore-announced fires with unfailing correctness, and that his father before him was far-famed for the possession of the same gift or power of prophecy.

Mr. Howzer has determined hereafter, not to make public his predictions, but to give them privately to the Foreman of No. 3, that he may make such use of them as he may deem proper for the public good.

For the Sentinel.

A Valuable Accession to the Republican Party.

MESSRS. EDITORS:—I see that the *News* claims the election of JACKSON HADLEY, as President of the Council, as a Democratic triumph. For one, I demur. Mr. HADLEY, at the late election, gave substantial proof of the sincerity of his remark, at one of the Peoples' Meetings, that he was "in favor of Reform." He worked all day like a hero, as did all his subordinates, *to defeat* the "regular Democratic ticket," or, at least, portions of it. So zealous was he in the business, that he is reported to have used the funds placed in his hands by the "regular" city candidates to defeat them, by trading them off against those on the Ward ticket who were obnoxious to him.

But now that the Republicans have got him, the question is what to do with him. I imagine they will be in a quandary similar to that of the man who won an Elephant at a raffle.

ANTI-LECOMPTON.

Milwaukee, April 10th.

SOUTHERN WISCONSIN R. R.—FREIGHT FROM MONROE.—The Monroe *Sentinel* of the 8th instant, contains the following summary of the shipments from that point during the month just past:

FREIGHT OFFICE, M. & M. R. R.,
MONROE STATION, April 6th, }

Editor Tenney:—At your request I furnish you a report of freight forwarded from this Station during the month of March:

Flour,	24 bbls.
Wheat,	17,225 bus.
Rye,	24 do
Corn,	8 do
Oats,	725 do
Clover Seed,	30 do
Beans,	10 do
Pork,	13,522 lbs
Butter,	660 do
Eggs,	31 bbls
Lard,	258 lbs
Hides,	7850 do
Hard wood lumber,	11500 ft
Wagon Hubs,	208
do Felloes,	360
Other Freight,	19,190 lbs.

This is a better report than I anticipated before making it out, for the roads were almost impassable for "many days." It is a significant fact, that of the 17,225 bushels of wheat, 5,580 bushels was forwarded the last three days of the month. This doubtless was owing to the improved condition of the roads. April comes in with a smile, though a cool one. The weather is fine, the roads good, and as soon as "Spring's work" is finished, the Wheat will come in freely, though the price should remain (and I think it will) at about fifty cents.

Yours Respectfully,
WM. B. STRONG, Agent.

KENOSHA CITY ELECTION.—The Kenosha Charter Election resulted in the choice of the following city officers:

Mayor—Geo. H. Paul.
Treasurer—A. Hanson.
Clerk—C. B. Lowis.
Marshal—M. Laughlin.
City Superintendent—M. Frank.
Assessor—D. C. Gaskill.
Justice of the Peace—H. Tuttle.
Railroad Commissioner—H. Lines.

Five Republicans, three Democrats:

In the Common Council, the Republicans have 9 members, and the Democrats 3:

In the Board of School Commissioners, the Republicans have 7 members and the Democrats 1. Of the Constables elect, 3 are Republicans and 1 Democrat.

OSHKOSH CITY ELECTION.—The city of Oshkosh held its charter election on Monday last.—The vote cast was the largest ever polled there. S. M. HAY, Republican candidate for Mayor, beat EASTMAN, Democrat, 181 votes. Party lines were drawn in the contest, and Mr. EASTMAN, who was otherwise unobjectionable, owed his defeat to his Lecompton Democracy, and to being one of Mr. Buchanan's Post Masters. In the Common Council the Republicans have one majority. The Democrats elected their Clerk, Treasurer and Marshal, and the Republicans the Superintendent.

MONROE, GREEN COUNTY.—We learn from the *Sentinel*, of the 8th inst., that the town election in Monroe resulted in a handsome Republican triumph; the majorities on the Republican ticket ranging from 50 to 125. F. H. WEST, for Chairman of the Board of Supervisors, received 284 votes to 269 for S. P. CONDEE.

PROGRESS OF THE WOLF RIVER AND RIPON R. R.—The Ripon *Times* of the 9th instant continues the following gratifying information:

The Ripon & Wolf R. R., is now ready for the iron as far as Omro, and nearly so between Omro and Winneconne. This unrivaled work has been done by the farmers, along the line of the road, by turning out provisions and the merchants paying up their stock in goods, so that there are now $60,000 of Omro town bonds and all the first mortgage bonds left to purchase the iron with, which will, no doubt, be on the ground soon, as Capt. Mapes, the founder of the Road, as well as this city, has now gone to New York for the purpose of negotiating for it. The Milwaukee & Horicon R. R. Co. have the rolling stock ready to put on as soon as the rails are laid. We presume that before the end of June next, the cars will be running as far as Omro, if not to Winneconne.

A SHIPPING OFFICE IN CHICAGO.—We notice by the Chicago *Tribune*, that Capt. James D. Sinclair has established a shipping office at 122 South Water street, in that city, and that masters of vessels are generally shipping their men through it. Such an office, well conducted, would be one of utility, both to sailors and vessel-owners.

The Funeral of Professor Hudson—A Touching Scene at Oberlin.

[Correspondence of the Cleveland Herald.]
OBERLIN COLLEGE, April 5.

On Tuesday last, a young man connected with the Preparatory Department of our Institution, fell dead, almost while he was in the act of ball-playing. The event caused great excitement and solemnity among us. It was in every thought and upon every tongue. And alas! before this feeling began to ebb, its current was a thousand fold quickened by the terrible intelligence brought by the mail on Friday morning, that Prof. Hudson was killed! You can imagine, better than I can describe, the horror which, with this intelligence, sped like a thunderbolt through our place. Classes paused in their recitations as if stunned. Business was forgotten, and our streets swarmed with crowds eagerly asking for the sad details.

The reports brought in a letter from Mr. Brown, of the Ohio Farmer, and in the daily papers, were too definite to admit of doubt; and when a delegation of the faculty left for Cleveland to learn the truth of the sorrowful tidings, few doubted that they would bring back too sure evidence in confirmation of it. And so they did. At midnight, the wail of the engine, long drawn and mournful as a dirge, and heard by almost every ear in the community, for anxious excitement forbade sleep, heralded a funeral company, and presently one of our happiest homes received under its roof the mangled remains of him who, only the day before, was its head and glory.

On Saturday all institution exercises were suspended, and twice during the day the great church received a multitude of pupils and citizens who came together to acknowledge God's hand and bow in penitence before him. Never before had I seen a place so wrought upon, so penetrated and permeated with the spirit of any event, as ours was on that day of sadness.

The funeral services were held yesterday at 10½ A. M. The body was borne to the church by bearers taken from Prof. Hudson's classes, and followed by the family and immediate friends of the family. At the church, an hour before the arrival of the cortege, an immense throng was in waiting. The crowd was, for size, like that which gathers on commencement day, but there were none of the pomps and gaieties of a festive occasions now—all was solemn and reverent to the last degree.

So was our dead buried. Honor to the good name now joined with that of saintship—light.—Few truer men live—few men whose genuine fess prove the walks of busy life give such promise of lasting usefulness as his. An honorable youth and his noble time foretold. Endowed with shining talents, skilled in letters, expert in oratory, vigorous in person, full of energy, well furnished with the elements of character, and formed by his own iron purpose and devotion to God and man their due, he was such an one as the world cannot afford to lose. Long will it be before his now vacant place here will be truly filled.

Your readers will be glad to know that the family of Prof. Hudson is left in comfortable circumstances, and what is better still, that the consolations of Divine Grace sustain all its members in their sore affliction.

It may not be amiss for me to say that at the regular meeting of the faculty held on Tuesday last, forty-eight hours before the decease of Prof. Hudson, he opened the meeting, it being his turn so to do, with prayer, and that his colleagues remember with interest the fact that his first words, solemnly spoken, were, "Truly, Lord, in life we are in the midst of death." All thrice the sun had not set, before he found that he then spoke with prophecy.

[From the N. Y. Tribune.]
Distressing Accident.

A FATHER AND SON INSTANTLY KILLED BY THE OVERTURNING OF A WAGON.—On Saturday evening the officers in charge of the Station House of the Fifth Precinct were informed that Moses S. Ross and his son, Lewis, the former aged 55, and the latter 16 years, had been missing from their residence, No. 208 South First street, since twelve o'clock, and it was feared that they had met with foul play, as the father had with him a considerable sum of money. They left home with a hoe rse and wagon, with the intention of going to New York, Greenpoint, and Flushing. The last that was known of them was that they were seen to cross Flushing Bridge on their return to Williamsburgh. The horse came home about 10 o'clock with the harness, but no wagon. The fact was telegraphed to the office of the Deputy Superintendent of Police, and inquiries set on foot to discover the whereabouts of the missing parties, but without success.

About eight o'clock yesterday morning, a little boy while passing along Norman avenue, near Oakland avenue, in the Seventh Ward, discovered a wagon overturned down an embankment at the head of Norman avenue; underneath it were the bodies of two persons. Officer Booth of the Seventeenth Ward was notified, and on going to the spot found the bodies of Mr. Ross and his son lying under the wagon quite dead. The bodies were lying on their faces, that of the elder Ross being on the ground, while the son was on him with his arms around the body of his father; over them was the wagon, which contained a quantity of cutlery in sacks. On the person of the elder was found $57 in money and a gold watch and chain. The bodies were removed to the Station House of the Seventeenth Ward, and Coroner Snell notified to hold an inquest, when the following jury were impannelled:—

James Jones, William Spindle, Wm. W. Edwards, Chas. Burroughs, John Leviness, John H. Bohlaw, Frederick Flannigan, Henry Layne.

The bodies of the deceased were viewed by the Jury, when the inquest was adjourned until the afternoon. Neither of the bodies exhibited fractures of any of the bones, nor were there marks of cuts on the bodies. The bodies were much bruised, and, from their appearance, death must have speedily ensued from the shock of the fall, and the weight of the wagon causing suffocation. The wagon was hardly injured, excepting the whiffle-tree, which was broken, and by which the horse became disengaged.

The investigation in the afternoon went to show that about 2½ o'clock on Saturday evening deceased, who is a cutler by occupation, stopped at the hardware store of Bliss & Brown, at the corner of Greenpoint avenue and Franklin street, Seventeenth ward, and after transacting some business with that firm started to go home. Before doing so he inquired the price of toll on the bridge over Bushwick Creek, and being informed, stated that he thought he could take the other road, and drove up of Greenpoint avenue. The accident occurred on a spot at the upper portion of the old Messerole farm, and which has been cut through by streets and avenues, some of which have not yet been completely opened.

Deceased no doubt intended to follow the old road, which would lead him near Fifth street, Williamsburgh, but probably mistook that road and followed Oakland avenue, formerly Sixth street. Norman avenue has been but partially graded, and at its intersection with Oakland avenue there is a steep embankment descending some five feet. It is supposed that on reaching this place, it being quite dark, the embankment was not perceived and the horse shying at it, overturned the wagon, thus causing the sad accident. No evidences of the wagon having been dragged any distance appeared, and it is supposed that by the wagon overturning the whiffle-tree was broken, and the horse, becoming detached, went on his way home.

WOULD NOT GO OFF.—One of our most amiable scholars, and most delicate and distinguished romance writers, goes much into company and is much sought after. Mr. X. has a great deal of wit, and talks well. He has but one fault—he does not know when to go away.

He is one of those persons who rise from their chairs, make a motion to go, sit down, get up again, turn their hats every way, and then begin the conversation anew standing. Our farewell is a dead loss, their preparation for departure lasts an hour.

He was recently at the house of Madame N. of the Theatre Francais. He met there at the same time one of the gayest of our vaudeville writers.

The romancer X. rose to leave the room, taking his hat. Alas, the hat was condemned to three quarters of an hour's evolution.

The vaudevillist, whose language is at the same time fanciful and trifling, smiled and leaning towards Madame N., said to her:

"What a singular pistol this X. is." "It is unfortunate that we cannot make it go off," replied Madame N.

AN INCENDIARY SCOUNDREL.—The Utica *Herald* says:—On Tuesday evening last the large railroad freight house at Oneida was set on fire on the back side, and would probably have been destroyed but for a timely discovery. The flames were extinguished before much damage had been done. The next morning a notice was posted on a tree near the Post Office, which shows the fire to have been the work of an incendiary.—The *Sachem* prints a *verbatim* copy of the card, as follows:

Oneida March 30) 1858 N Y C R R Company
If the poor Round Oneida Dont get, work there
Ent one Dam thing Round Bout Will be Burned. the Mann that set the freight house on fire
is the man that rit this and there will be more
set on fire if tha wont give work. I am sure and
mean to be more.

HEROIC TO THE LAST.—A Washington correspondent of the New York *Times*, dating the 6th, writes:—"Colonel Benton is declining, but still working. He cannot rise again, but devotes some hours every day to his last work, asking only time to finish it. He speaks of his approaching end with heroic equanimity. It is proposed that Congress purchase an edition of the Abridgment for the use of the Government.

News from the Vicinity of Fort Scott—Two Men Killed and Another Wounded.

The Leavenworth City *Ledger*, of the 3d inst, says:

"Reliable information reached here yesterday, that a posse of men who represented themselves to be in search of deserters from the U.S. army, went to the house of Isaac Denton, on the Osage (about one hundred miles south of this city), on the night of the 25th of March last, and after inquiring if any deserters were concealed within and receiving a negative answer, insisted on searching the premises. Mr. Denton arose from his bed and met the posse in, and, without further ceremony, he was shot dead.

"They next proceeded to the residence of Abraham Hedrick, and, after making the same enquiry, and receiving the same treatment as at Denton's, he was shot dead.

"They then proceeded to the residence of Newton Davis, and, forcing an entrance, shot at him while sitting up in bed, one buckshot striking him in the hand, the residue of the charge lodging in the head-board of the bedstead.

"There was but one of the party recognized—his name is Brockett. The neighbors in the vicinity dispatched an express to Lawrence for assistance, which has gone down.

"These are all the particulars we have, and and give them substantially as related to us by a gentleman just from Lawrence, and whose veracity can be relied on.

"We hope that the federal authorities of the territory will take this matter in hand, and, if possible, arrest the guilty parties, in order that they may be properly punished."

INDIGNATION MEETING IN ST. LOUIS.—We find in our St. Louis exchanges that an indignation meeting has been held at St. Louis by the friends of Heinzman, who was arrested at that place a few days since at the instance of one Frankfeldt of this city. It seems, according to the resolutions passed, he was arrested without process or authority of any kind, upon a pretext of debt, and carried over to Illinois-town, where, by some means, goods and money were extorted from him, part of which was paid to the detectives, and the remainder to Frankfeldt and Tunnicliff, and Quigley, both St. Louis officers, upon a charge of robbery and kidnapping. Before the examination was closed he was again seized, and finally transferred to this city. He was put into the jail here, but released upon a writ of *habeas corpus*, and is now again in St. Louis.

The resolutions are drawn up in very strong terms, and were forwarded to the Governors of Illinois and Missouri with a request to inquire into the affair. The resolutions implicate a Chicago officer in the transaction, but no one from this city had anything to do with it except Frankfeldt.—*Chicago Press.*

WOOD'S HAIR RESTORATIVE.—We have never known any other medicine to win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never met with a case known to it to fail in restoring the hair to its original color. Wonderful as this is becoming premature gray, to give the "Restorative" a trial.—*Chester (Ill.) ONE DOLLAR WILL BUY
ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a mild cathartic, and at the same time as effectually as any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the liver to effect the more important object of the cure, and then goes to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these Gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the Compound of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine when it was known to its friends save, and we have never known it to fail in restoring the hair to its original color. Wonderful as this is becoming premature gray, to give the "Restorative" a trial.—*Chester (Ill.) Herald.*

HAPPY LOVE.

BY CHARLES MACKAY.

I.

What is the meaning of the song
That rings so clear and loud,
Thou sparklingly amid the copse—
Thou lark above the cloud?
What says thy happy, merry joyous throat,
Up in the welkin tree?
"I love my love because I know
My love loves me."

II.

What is the meaning of thy thought,
O, maiden, fair and young?
There is such pleasure in thine eyes,
Such music on thy tongue;
There is such glory on thy face—
What can this meaning be?
"I love my love because I know
My love loves me."

III.

O happy words! at Beauty's feet
We sing them ere our prime;
And when the early summers pass,
And Care comes on with time,
Still be it ours, in care's despite,
To join the chorus free—
"I love my love because I know
My love loves me."

DRUGGED TOO MUCH.—Dr. O. W. HOLMES, better known as the funny man, in his valedictory address to the medical graduates of Harvard University, delivered recently, gives the following advice to the medical students who were about to graduate:

With regard to the exhibition of drugs as a part of your medical treatment, the golden rule is, *be sparing*. Many remedies you give would make a well person so ill that he would send for you at once if he had taken one of your doses accidentally. It is not quite fair to give such things to a sick man, unless it is clear that they will do more good than the very considerable harm you know they will cause. Be very gracious with children especially. I have seen old men shiver at the recollection of the rhubarb and jalap of infancy. You may depend upon it that half the success of Homeopathy is due the sweet peace it has brought into the nursery.—Between the gurgling down of loathsome mixtures and the saccharine deliquescence of a minute globule, what tender mother could for a moment hesitate?

A COUNTRY EDITOR'S CRITICISM ON THEATRICALS.—One John E. Hatcher, editor of the Columbia (Tenn.) Mirror, visited Nashville during the engagement of Julia Dean Hayne. Hatcher didn't have the courtesies of the press extended to him. In his last paper he gives the following first-rate sketch of his impressions on the performance:

Found, when we got to the city, about supper time that— JULIA DEAN HAYNE

(that's the way the play-bills have it—*he* must feel small) was to be made the victim of a complimentary benefit that night—her last appearance on the Nashville boards. Didn't recollect ever having done anything for Julia; concluded to compliment her with our presence and give her the benefit of our six bits. As we don't have many of them things to spare, hope she considered the benefit considerable. Ought to have gone in free, with pea-nuts and extra programmes furnished gratis, as Crisp, the big dog of the concern, has been remarkably successful in an attempt to owe us two dollars for the last five years.

Got into the pit, with feet comfortably anchored in a puddle of tobacco juice just as up flashed the footlights and down flashed the five fiddlers—called by courtesy the orchestra—through the square hole under the stage where the licker department of the establishment is located. Tang a-lang went the bell, (a sweet-toned instrument borrowed from the cow which grazes in a lot behind the theater,) up went the curtain, and five greasy looking fellows, whom the audience were requested by the programme to look upon as thorough-bred gentlemen, but which their appearance and manners wouldn't let the audience do, were "discovered" seated round a popular mahogany table, drinking out of silver goblets made of tin, and talking about a gal, who, from all we could learn, was some pumpkins through and through.

Didn't care to hear any more about her though, and passed the time till the premium stock came aboard in carving "humbug" on the back of the next seat with a jack-knife, and in perusing the tiers of female highfalutinity that carried double-barrel spy-glasses, rented for the occasion around at old man Gowdey's jewelry store. When the rascals got through with their nonsense, Julia Dean Hayne flouted out as fine as split silk. Julia is a lovely woman, and, having plenty of money, wears very fine clothes on the stage, and probably off it too. Has been married a couple of years, and had her baby along with her. Seemed to play with it in her arms—though she don't often come out this style.

First rate actress, Julia; and differed in many ways from the actors that figured in the first scene—especially in this, that while she has simply a Grecian countenance, the others seemed to have been cast in grease heels over head, without having had time to wash it off. The play was "The Love Chase." Julia suits the play like a brick. That abundant soft hair, and pearly classic brow, those languishing, lustrous eyes, those pouting lips, and in short, all the features of her face form a "dead ang'amble" that makes a love-chase an exceedingly probable circumstance. Her part of the play paid a handsome per cent. on the six bits invested, but the rest of the thing was a bad speculation.

Went back to the hotel when the institution adjourned, smoked a cigar in the bar-room, and went up to bed, and to sleep; and dreamed that all the world was a stage and that all the actresses were Julia Dean Haynes—which they ain't though, by several.
